Short-term Incentive	Annual Bonus Target Percent ¹	Bonus Payment Percent ²	Bonus Payment Amount ²
STI FY21 PfR	7.50	12.06	317,261.00 INR

Notes

The Bonus Payment Amount will be paid by 31 December or later, depending on local country regulations and payroll schedule. Please note that bonus program changes and bonus payments are subject to HPE's discretion. Past bonus payments neither indicate potential future bonus amounts nor entitle an employee to any bonus pay-outs in the future.

¹ The reported Annual Bonus Target Percent (available for PfR and HPEFS ICP only) is a percent of eligible earnings.

² The Bonus Payment Percent is calculated using annualized eligible earnings paid during the fiscal year, which may or may not be different than your annual Base Pay. See the STI website for further details on eligible earnings. The Bonus Payment Amount, if any, will be paid to the employee in local currency.

Long-term Incentives (Equity)	Value on Grant Date ¹	Equity Grant Units
Restricted Stock Units (RSUs) ²	13,500.00 USD	878 units

Notes

Equity Grant terms and conditions are included in the grant agreements, available at Merrill Lynch in January.

¹ Value on Grant Date may differ slightly from that communicated due to conversion of the planned grant value into shares on the grant date.

² Actual equity value will depend on share price at time of release, once grant vests.

Notes and assumptions

¹ Target Annual Bonus

- The above is a generic bonus calculation for illustration only, the actual calculation for certain countries may vary from the above based on local eligible earnings.

² Long-term Incentives

- All Equity Grants are granted in USD and converted in units over HPE shares, subject to vesting schedules. No value will be realized until release of shares, or cash as applicable. All Equity Grants are subject to the terms of your grant agreement, which can be found at Merrill Lynch.
- Annual LTI History represents the estimated value on the grant date and does not reflect current value of any vested and/or unvested shares.

³ Target Compensation Notes

- RSUs represent the estimated value on the grant date. Actual value will depend on share price at time of release, once grant vests.

⁴ Estimated Unvested Long-term Incentives Assumptions

- Unvested stock options valued net of exercise price, which is a different calculation than that used to estimate stock option value under the target compensation
- Actual value will depend on share price at time of release of RSUs.
- Estimated Unvested value is as of date statement was created (as noted in footer) and does not include Dividend Equivalent Units (DEUs). View more up-to-date account information on the Merrill Lynch website (www.benefits.ml.com).

These figures are for illustrative purposes only and are based on assumptions disclosed above. Actual results will depend on Hewlett Packard Enterprise's actual performance over current and future fiscal years for all performance-related pay. Long-term incentives, such as Stock Options and RSUs, are not part of compensation for purposes of calculating any severance or pension benefits. Receiving a long-term incentive in one year does not create a right to receive a long-term incentive in future years. In addition, long-term incentives are subject to the terms and conditions of the applicable grant agreement, such as continued employment and/or performance criteria. If the applicable terms and conditions are not satisfied, the grant will be forfeited and you will have no right to additional compensation in lieu of forfeited grants.
